

Nest Box Usage 2012

We checked 12 nest boxes along Emmbrook Walk and 13 along Riverside Walk of which 11 and 7 respectively (72%) had been used by birds.

Emmbrook Walk		
Used	Not used	Comments
11	1	Mainly by tits, one of 2 wren boxes used. One of two open-fronted boxes used, probably by a grey wagtail; hope to get the one egg present identified.
Riverside Walk		
7	5	One occupied by a mouse. Used mainly by tits. The owl box used again. 1 of the 4 treecreeper boxes used, the unused ones either to be relocated or the ivy stripped from the tree trunk(done) The kingfisher box still to be checked.
